

An IPCC Special Report on the impacts of global warming of 1.5°C above pre-industrial levels and related global greenhouse gas emission pathways, in the context of strengthening the global response to the threat of climate change, sustainable development, and efforts to eradicate poverty

Web-Based Report: Chapter Template

- 1) Title
- 2) Authors: List of authors, co-authors, and contributors including affiliation and contact information.
- 3) Landing Page Sentence: One sentence that states what the chapter is about. This sentence should be very broad and just cover what the person visiting this page should expect to see.
- 4) Section Headings: Titles for each section heading.
- 5) Key Messages: At least one key message for each section. Possible to include many key messages per section.
- 6) Section Text: This is the actual text for the chapter.
- 7) Maps and Graphs: Capture high resolution (2000px and above) maps and graphs. Include reference and link to source.
- 8) Maps and Graphs from Raw Data: Include high resolution map and graph output (2000px and above). These could be made to be interactive if data summaries are produced and captured.
- 9) Pull Quotes (not required): Highlight any ‘pull quotes’ that you would like to add. Pull quotes will be in bigger, bolder text in the chapter.
- 10) Traceable Accounts: (TO BE DETERMINED) Include traceable accounts if desired for any key message, maps, graphs, or tables.
- 11) References
- 13) Tagging: Need to have strategy for identifying tags for key content area, maps, and graphs.
